

SINGLE CLEAT SINGLE CABLE TYPE

Features and Benefits

- Used to restrain single cables (single core or multi-core) onto cable ladder, tray or strut systems.
- · Open hinge system allows easy placement of the cable into the cleat prior to tightening.
- Suitable for use with LV and HV cables.
- · Manufactured from corrosion resistant, non-magnetic 316 stainless steel.
- Complete with LSOH polymeric liners to protect cable sheath during installation and movement due to
 electromechanical forces during short circuits.
- · Accessible clamping bolt allows easy tightening with a single tool.

Construction Frame: Cable resting base: Liner:

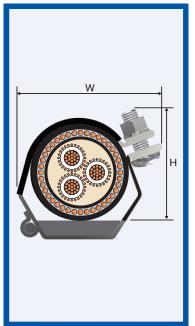

Locking hardware:

Corrosion resistant, non-magnetic 316 stainless steel LSOH Halogen Free Plastic - Polymeric composite LSOH Halogen Free Plastic - Polymeric composite 316 stainless steel M8 and M10 bolt and nylon locking nut
